DICE Monitoring

Matrix Interactive

Integrated audio and video, AI, analytics, and much more...

FEATURES & HIGLIGHTS

- Add new services with AI, machine learning, and analytics using our robust video platform.

- Greet visitors remotely, provide access, and accept deliveries with virtual doorman features.

- Log in securely and view cameras with unlimited frequency with virtual guard tours.

- Implement voice down features and remote activation of devices with real-time smart triggers.

- Live video viewing for security personnel, end-users, law enforcement, and emergency services.

- Maintain accountability and customer service standards with intelligent video recording.

Go beyond basic monitoring with Matrix Interactive. Supercharge your monitoring with interactive video, artificial intelligence (AI), machine learning, and cloud-based analytics tools to identify objects and human behavior and manage video recordings.

Our virtual doorman and virtual guard tours provide remote services coupled with voice down features and remote activation of devices. Matrix Interactive interfaces with any central station software and includes cyber security, embedded PBX, and mass notification.

The New DICE Matrix Interactive is the perfect unified solution to empower your business.

THE NEW

DICE

CORPORATION

New Technologies. New Products. New Services.
